Introduction

Round-up Starter Grammar Practice combines games and fun with serious, systematic grammar practice. It is ideal for young learners in the preliminary stages of English language learning.

Students see grammar points clearly presented in colourful boxes and tables. They practice grammar through lively, highly illustrated games and activities.

Round-up is especially designed for different students studying English in different ways.

It can be used:

- in class with a coursebook. Students do both oral work - in pairs and in groups - and written work in Round-up.
- after class. The 'write-in' activities are ideal for homework. Students can practice what they have learned in the classroom.
- in the holidays for revision. Round-up has clear instructions and simple grammar boxes, so students can study at home without a teacher.

The Round-up Teacher's Guide includes a full answer key and four tests plus answer keys.
